Young Researcher Paper Award 2021

We have examined all the comments sent by the reviewers as well as the evaluations of the Editors and Guest Editors. After careful consideration, we selected the following paper as the winner of the *Best Young Researcher Paper Award 2021*. The first author will receive a monetary award and a certificate of recognition.

Best Young Researcher Paper Award 2021

Title: Synthesis and Characterization of Tin Oxide Nanopowder and Its Application to Sensing Different Pathogens

Authors: Akhil Chandran M. K., Branimir Bajac, Gregor Filipič, Željka Cvejić, Vladimir V. Srdić, Milan Radovanović, Mitar Simić, Sohail Sarang, and Goran M. Stojanović (Serbia)

<https://doi.org/10.18494/SAM.2021.3090>

The following papers were also highly evaluated. The first authors of the highly evaluated papers will also receive a certificate of recognition.

Young Researcher Paper Award 2021

Title: Optical Crackmeter for Retaining Wall in a Landslide Area Using Computer Vision Technology

Authors: Yu-Chin Chen, I-Hui Chen, Jun-Yang Chen, and Miao-Bin Su (Taiwan)

<https://doi.org/10.18494/SAM.2021.3011>

Title: Highly Sensitive Electrochemical Sensor for Nitrite Based on Polyethyleneimine and Carbon Quantum Dots Composite

Authors: Ruizhen Li, Lijun Du, Yu Hu, Xingyong Liu, and Guo Liu (China)
