

Sensors and Materials

Special Issue on Smart Mechatronics for Energy Harvesting

Call for Papers

Energy harvesting is now regarded as one of the key technologies for realizing self-powered, maintenance-free, and autonomous wireless network systems for the coming next-generation Internet of Things era. The technological advancement of energy harvesting devices/systems can be achieved by the development of both mechanical and electrical aspects. This is because one characteristic affects the other, and the performance of energy harvesting devices/systems is related to the performance of both. Thus, it is essential to present and share the knowledge of a variety of related methodologies. With this background, this special issue will focus on state-of-the-art mechatronics technologies for energy harvesting and will cover a wide range of topics including materials, mechanics, electronics, fabrication processes, and applications.

Scope:

- Mechatronics for energy harvesters
- Materials for energy harvesters
- Power management systems/circuits for energy harvesters
- Self-powered sensor/actuator systems for energy harvesters
- Fabrication processes for energy harvester development
- Modeling and analysis of energy harvesting devices/systems
- Applications of energy harvesting devices/systems

Submission due date: ~~September 30, 2021~~ => **January 31, 2022**

Publication date (planned): ~~February 2022~~ => **April 2022**

Journal website: <https://myukk.org/>

Guest Editor: Assoc. Prof. Daisuke Yamane (Ritsumeikan University)

Submit to: Online Manuscript Submission System (<https://myukk-org.ssl-xserver.jp/form/>)

(Attention)

As stated in Instructions to Authors in the Guidelines, the author(s) will be obliged to pay the publication fee upon the acceptance of the manuscript for publication (for example, JPY 99360 for 10 pages in *Sensors and Materials* format). If the quality of the English of your manuscript does not satisfy the journal standards, the authors should bear the proofreading fee (JPY 10000–30000), which will be charged with the publication fee.

If you have any questions, please feel free to contact the editorial staff at the address below.
