

**SPECIAL ISSUE ON THE 13TH INTERNATIONAL MULTI-CONFERENCE
ON ENGINEERING AND TECHNOLOGY INNOVATION 2024 (IMETI2024)**

PREFACE

This Special Issue presents eight meticulously selected papers from the proceedings of the 13th International Multi-Conference on Engineering and Technology Innovation (IMETI 2024), held from November 25 to 29, 2024, in Chiayi, Taiwan. These articles showcase emerging advancements and innovative applications in sensor technologies, reflecting the breadth and depth of current research in this dynamic field. Each submission underwent a rigorous peer-review process, receiving evaluations from at least two expert reviewers. Inclusion in this issue was based on reviewer recommendations, mandatory revisions, and a thorough final assessment by the Guest Editor. We aim for this Special Issue to inspire further exploration and innovation in sensor technologies and their associated applications.

It has been a great honor and privilege to serve as the editor of this Special Issue for Sensors and Materials. I extend my heartfelt thanks to all contributing authors for their original and valuable works. I am deeply grateful to the reviewers for their meticulous evaluations and insightful feedback, which significantly enhanced the quality of this issue. Lastly, I express my sincere appreciation to Editor-in-Chief Professor Makoto Ishida and Ms. Naoko Makino of the Editorial Department of MYU K.K. for their kind guidance and professional support throughout the publication process.
